PHOTOGRAPHY

To select the photo proofs or images for an album design, just follow the directions below. If you don't have a CD burner, or would like the credit towards re-prints, just let me know by phone at 507-254-0462 or e-mail at uniquetouch22@yahoo.com

Directions for Proofs OR Album Selection

1. Create a new folder by right clicking on the screen, then select *new*, then *new folder*.
2. Drag the photos you would like to use into the folder.
3. Choose 150 photos if you would like the 4x6 proof photos
4. Choose 100-125 if you would like a coffee table book- choose fewer images for a more open design, choose more images for a more full design.

If you don't want to move the original photos, just right click on them and select copy- then in the new folder right click on an empty area and select paste.

If you would like to keep track of how many photos you have as you select pictures, an easy way to check is to right click on the folder containing your images, then select properties. The properties box will have a listing of how many files are in the folder- this is the number of photos you have selected so far.

Directions for slideshow

2. Name the folder *Slide show*
3. Drag the photos you would like to use into the folder.
4. Choose 40-80 photos you would like included- it works best to choose photos from all parts of the day, ones that show the story well.
